At Andromeda we see the future as a challenge.

All the goals we have attained since now are

only the point of departure to meet such challenge.

This scenario have suggested design
combination of rare
be reduced only to the meaning
yet may be
pursuit of superlative,
of revolutionizing the very concept

solutions which offer an exclusive
savoir-faire and versatility which can no more
of the island we belong to,
translated very simply into the uncompromising
into a design capable
of Murano glass.

It is the beauty of the gesture

that moves us, the masters' hand

at work as glass is transformed into art.

Quality and flexibility have always been

the cornerstones of our philosophy.

Today, more than ever, we believe it is not trying

to be the bigger player in the market,

but about trying to be the best.

"Designalive" reveals our credo that

the hand-making of glass lighting is not only rooted

in the aesthetic form, but in the soul of work.

The Vetro Artistico di Murano trademark is granted to carefully selected companies, based on strict criteria.
A highly qualified technical and scientific commission keeps the use of the trademark constantly under control.
Only authentic products and glassmakers whose work is based on the original Muranese glassmaking
traditions are authorized to display the trademark.
