DE MAJO

DE MAJO

Una generazione dopo l'altra, il vetro come arte di famiglia *Generation after generation, glass as family art*

La de Majo Illuminazione ha origine nell'immediato dopoguerra ad opera di Guido de Majo, che dalla natia Napoli si trasferisce in laguna, e fonda, nel 1947, la sua prima fornace a Murano. Nonostante le piccole dimensioni degli esordi, sa rendersi da subito protagonista nella realtà vetraria muranese grazie ad un'oculata strategia aziendale sempre attenta alla qualità della produzione, sino a diventare in pochi anni una vera e propria industria. Il forte impegno verso il miglioramento continuo, ha sempre permesso al marchio de Majo di cogliere i nuovi fermenti che investivano l'industria del vetro. Quando negli anni Sessanta il design è entrato a far parte dello scenario produttivo, de Majo è stata tra le prime aziende ad investire nel settore, affiancando alle creazioni di alto artigianato tradizionale un'accurata produzione seriale, ed allargando perciò sensibilmente la propria fascia di mercato. Sin da allora, è stato dato spazio a giovani designers la cui creatività ha potuto liberamente esprimersi per giungere al miglior risultato ottenibile: vale a dire un prodotto che, per quanto serializzato, mantenesse sempre un'anima, una coerenza progettuale in equilibrio perfetto tra esigenze estetiche ed esigenze funzionali. L'attenzione e cura estrema nella lavorazione del vetro, per de Majo è storicamente andata di pari passo con le necessità di sicurezza sul luogo di lavoro e di rispetto per l'ambiente. Oggi, l'azienda mantiene viva ed evolve l'antica tradizione muranese ricercando sempre nuovi linguaggi espressivi e offrendo al pubblico un'ampia panoramica sulle ultime tendenze del design: esercizi di stile pensati per la sensibilità di chi, anche nell'ambito del gusto contemporaneo, sa riconoscere gli autentici valori della qualità e dell'eleganza.

de Majo Illuminazione was first established at the end of the second world war by Guido de Majo, who, having left his native Naples, moved to the Lagoon, and in 1947 founded his first glassworks on the island of Murano. Although a small business concern at the beginning he knew how to transform it into an important reality in the world of Murano glass thanks to a company strategy built on quality production techniques turning this company, in just a few years, into a leading industrial enterprise.

This commitment, focussed on ongoing improvement, allowed de Majo to deal with new forms of pressure which were sweeping across the glass industry. In the 70's design became an important element in production and de Majo was one of the first companies to invest in this concept and introduced alongside the traditional high-quality crafted products, a standardised range expanding its own market considerably.

Since that point in time de Majo has always given young designers the right amount of freedom of creativity to achieve to best results possible which simply translates into a product, however "standard" with its own personality, and the perfect balance between lighting efficiency and appeal.

The meticulous care to detail and to production techniques for de Majo has always embraced the need for guaranteeing safety in the workplace and respect for the environment.

Today, this company maintains the early Murano traditions and at the same time strives for new style appeal offering customers a wide selection of current design trends for who with a taste for the contemporary appreciates authentic quality and elegance.

Dal 1947, l'eccellenza che dona prestigio ad ogni ambiente

Fin dai suoi esordi a Murano, negli anni Quaranta del secolo scorso, la de Majo Illuminazione ha orientato il proprio impegno e il talento dei suoi Maestri vetrai verso la produzione dei lampadari classici, accumulando nel tempo un'esperienza ed una sapienza artigianale ben visibili in ciascuna delle proprie realizzazioni.

È indubbio che, da qualche anno, il lampadario classico veneziano sia ritornato in voga come superlativo elemento di arredo, grazie alle sue doti uniche e universalmente riconosciutegli di versatilità, adattabilità, prestigio. È vero altresì (caratteristica straordinaria del vetro di Murano) che il lampadario classico ha saputo riproporsi in nuove interpretazioni, attraverso il talento di designers e Maestri vetrai: pur non rinunciando alle lavorazioni classiche, si è imposto quale espressione di design attuale e di buon gusto.

Dalla consapevolezza che il lampadario può risultare splendido protagonista in numerosi e differenti contesti di arredo, deriva la necessità di offrirne il più ampio grado di personalizzazione possibile. Pertanto le forme, le dimensioni ed i colori di tutti i lampadari del presente catalogo possono essere variati a piacimento dell'utente, grazie ad un'abilità che non conosce ostacoli realizzativi. Su richiesta, de Majo realizza inoltre progettazioni speciali, uniche ed inedite, che rappresentano il culmine di eccellenza della sua produzione: lampadari di altissima fattura destinati ad impreziosire dimore private, palazzi e grandi hotels in tutto il mondo, pensati da un team interno di creativi e prodotti a Murano da maestranze che sanno plasmare il vetro secondo i migliori dettami della tradizione, con arte e passione ineguagliabile.

Since 1947 an excellence which enhances any location

Since the start in Murano in the 1940's, de Majo Illuminazione has always focused on and converged the talents of its master glassmakers towards the production of classic chandeliers and luminaries building, over time, an experience and handcrafting know-how which can be seen in each single creation.

Without doubt, in the last few years, the classic Venetian chandelier has become "fashionable" again becoming an important furnishing feature thanks to its unique and undoubtedly acknowledged ability to be flexible, adaptable and elegant. It is also true to say (extraordinary feature of Murano glass) the classic chandelier has been reinterpreted thanks to the skills and talent of designers and the Master glassmakers, and without losing the traditional glass crafting technique, this chandelier has become the expression of good taste and contemporary design appeal.

Knowing that a chandelier can be the central feature in diverse furnishing contexts, there is, however, the need to offer a wider selection of more individual solutions. That is why the design, the size and colours of all the chandeliers and luminaires in this catalogue can be personalised satisfying individual customer taste and appeal thanks to the unleashed skills. Upon request de Majo can offer bespoke solutions, unique and truly exclusive, representing the apex of the superior quality production this company offers its customers, chandeliers and luminaires of superior quality workmanship, the perfect solution for enhancing homes, palaces and hotels across the globe, created by an in-house team of designers and produced on the island of Murano by expert Master glassmakers who know how to transform glass using traditional techniques blended with art and an unequalled passion.

Lampada a soffitto con elementi in vetro componibili
collezioni: Charlotte, Micos, Pro•secco.
Rosone disponibile in due misure: 60 cm o 80 cm
in acciaio inox lucido con sorgente a LED.
*Modular ceiling lamp with glass elements from collections:
Charlotte, Micos, Pro•secco.*
Canopy available in two sizes: 60 cm or 80 cm
in polished stainless steel with LED light bulb.

PRO•SECCO LIGHTDROPS SYSTEM
Design Oriano Favaretto

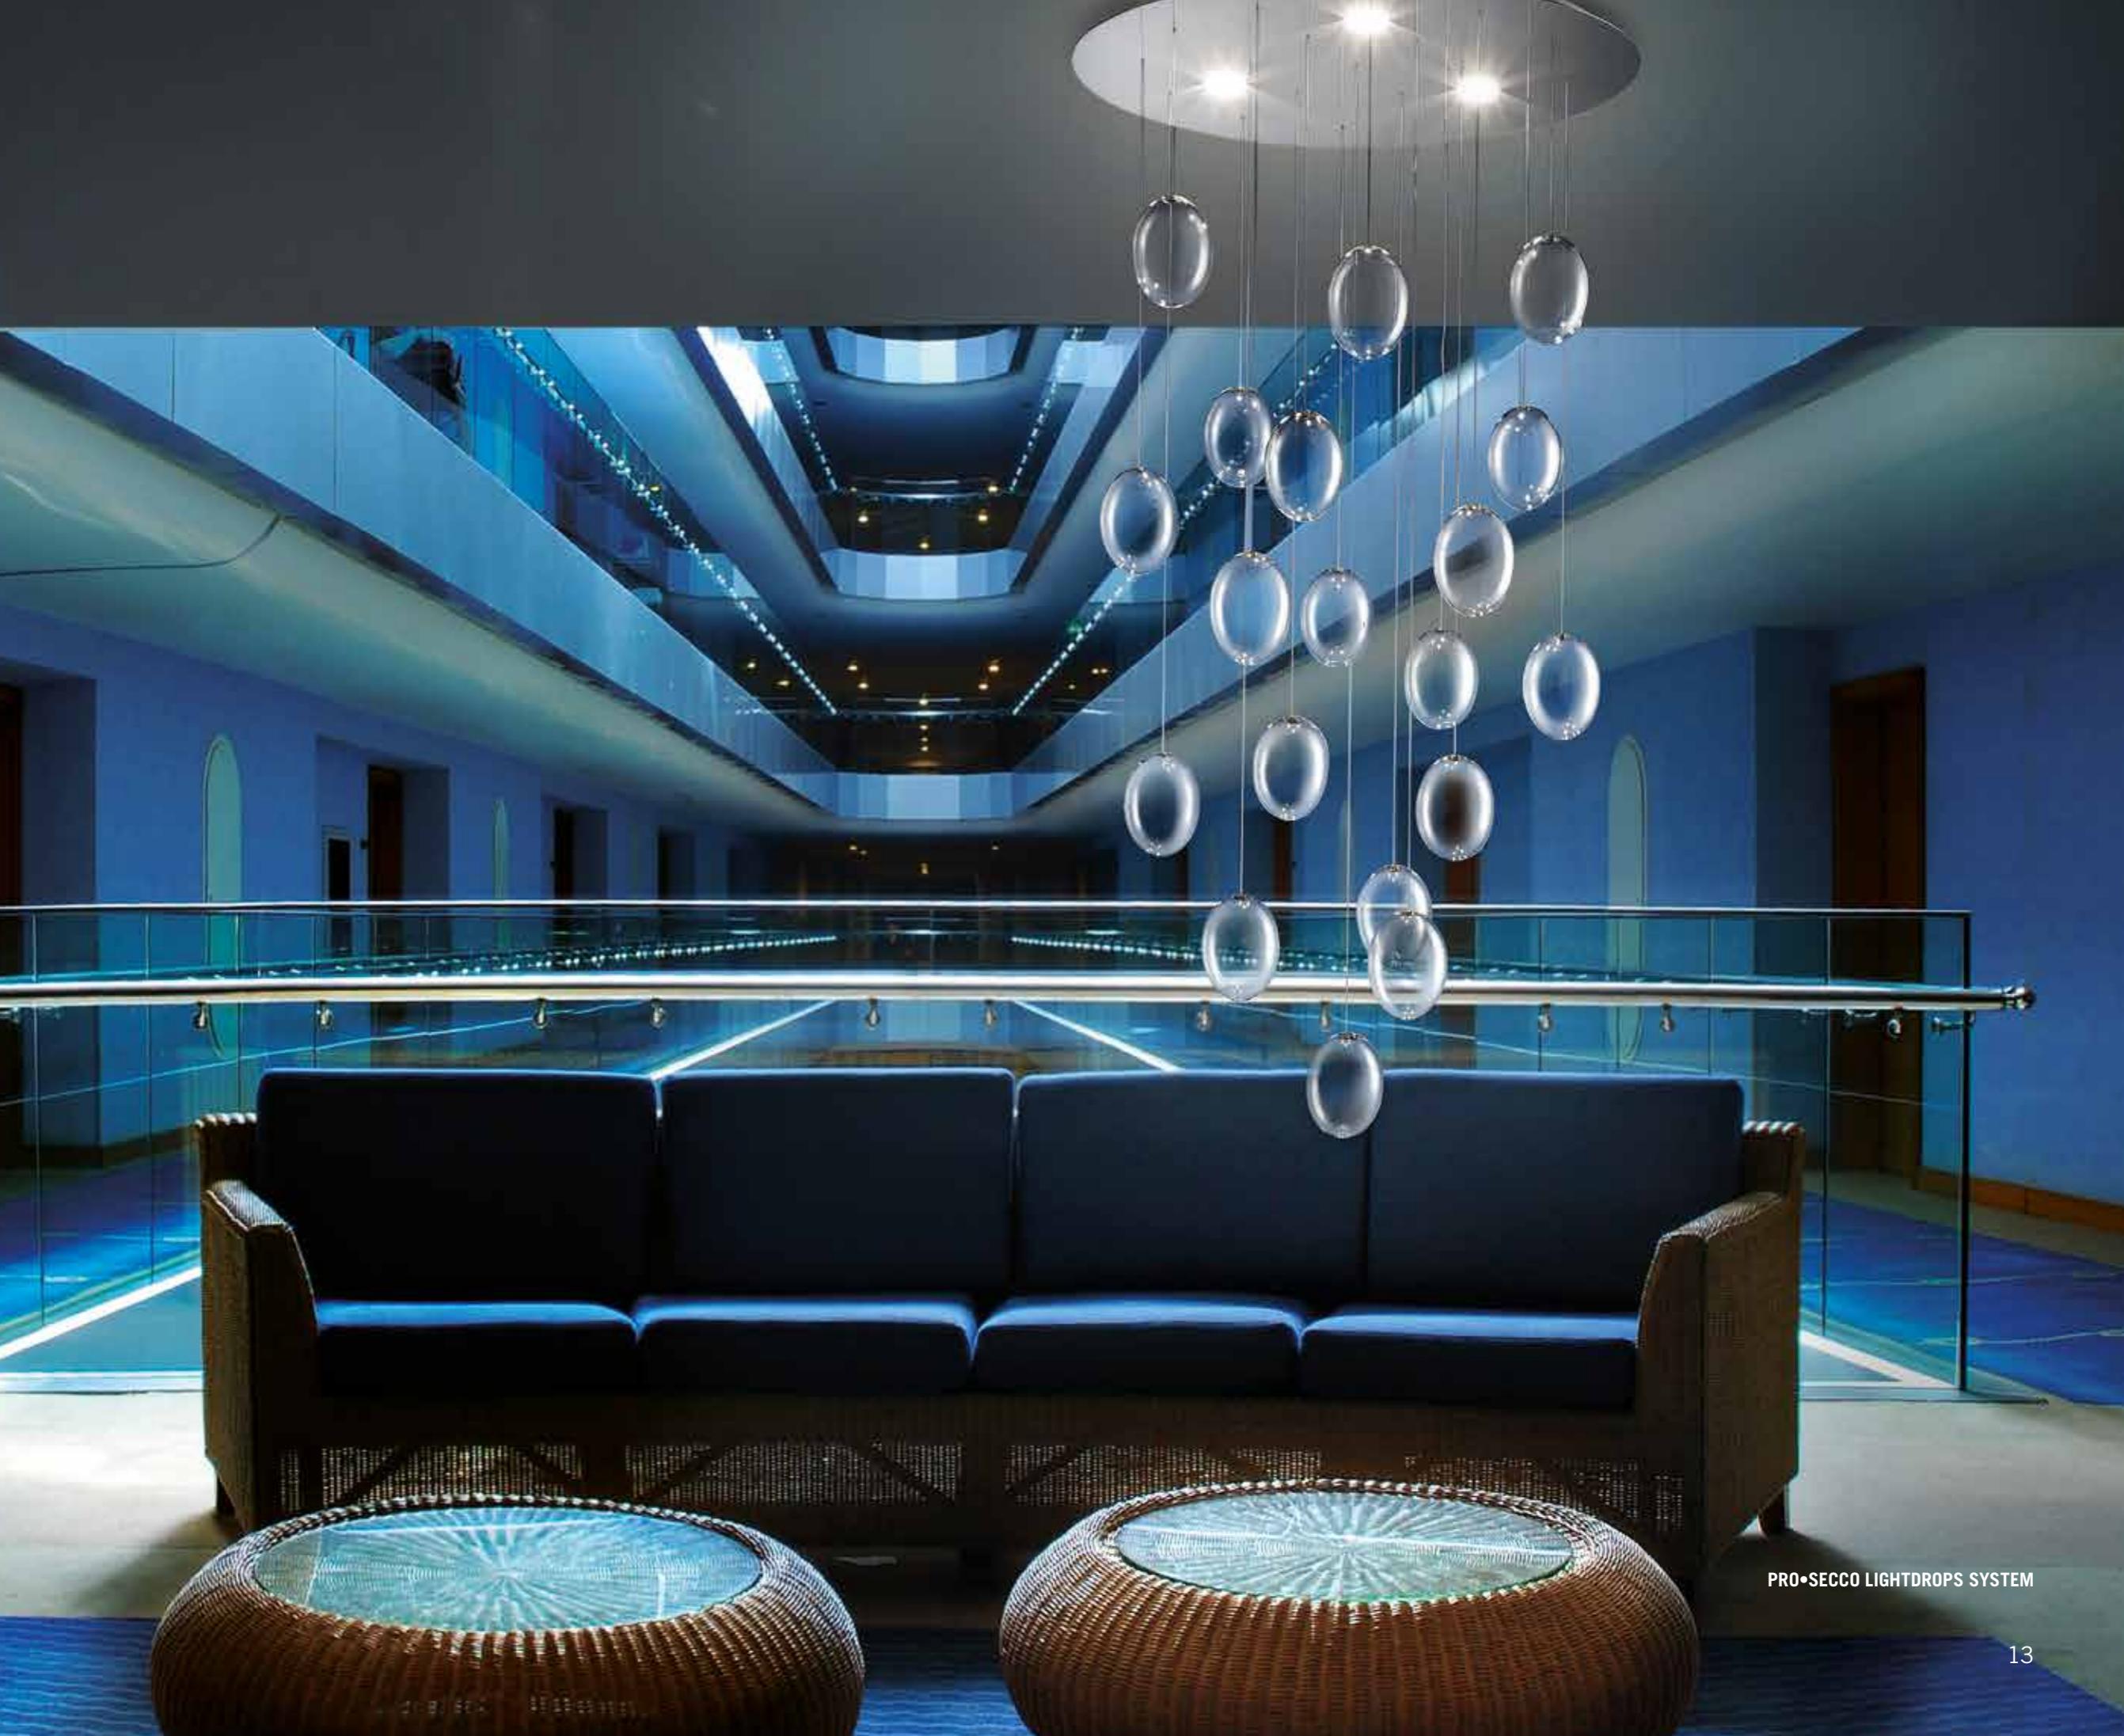

Elemento componibile in vetro borosilicato cristallo.
Rosone disponibile in due misure: 60 cm o 80 cm
in acciaio inox lucido con sorgente a LED.
Modular elements made of borosilicate glass.
Canopy available in two sizes: 60 cm or 80 cm
in polished stainless steel with LED light bulb.

CHARLOTTE LIGHTDROPS SYSTEM
Design Luca Ferretto

Elemento componibile in vetro cristallo trasparente.
Rosone disponibile in due misure: 60 cm o 80 cm
in acciaio inox lucido con sorgente a LED.
Modular elements in clear glass.
Canopy available in two sizes: 60 cm or 80 cm
in polished stainless steel with LED light bulb.

MICOS LIGHTDROPS SYSTEM
Design Francesco Dei Rossi – Lucio de Mayo

Elemento componibile in vetro cristallo trasparente.
Rosone disponibile in due misure: 60 cm o 80 cm
in acciaio inox lucido con sorgente a LED.
Modular elements in clear glass.
Canopy available in two sizes: 60 cm or 80 cm
in polished stainless steel with LED light bulb.

DE MAJO

Una generazione dopo l'altra, il vetro come arte di famiglia

La de Majo Illuminazione ha origine nell'immediato dopoguerra ad opera di Guido de Majo, che dalla natia Napoli si trasferisce in laguna, e fonda, nel 1947, la sua prima fornace a Murano. Nonostante le piccole dimensioni degli esordi, sa rendersi da subito protagonista nella realtà vetraria muranese grazie ad un'oculata strategia aziendale sempre attenta alla qualità della produzione, sino a diventare in pochi anni una vera e propria industria.

Il forte impegno verso il miglioramento continuo, ha sempre permesso al marchio de Majo di cogliere i nuovi fermenti che investivano l'industria del vetro. Quando negli anni Sessanta il design è entrato a far parte dello scenario produttivo, de Majo è stata tra le prime aziende ad investire nel settore, affiancando alle creazioni di alto artigianato tradizionale un'accurata produzione seriale, ed allargando perciò sensibilmente la propria fascia di mercato. Sin da allora, è stato dato spazio a giovani designers la cui creatività ha potuto liberamente esprimersi per giungere al miglior risultato ottenibile: vale a dire un prodotto che, per quanto serializzato, mantenesse sempre un'anima, una coerenza progettuale in equilibrio perfetto tra esigenze estetiche ed esigenze funzionali.

L'attenzione e cura estrema nella lavorazione del vetro, per de Majo è storicamente andata di pari passo con le necessità di sicurezza sul luogo di lavoro e di rispetto per l'ambiente. Oggi, l'azienda mantiene viva ed evolve l'antica tradizione muranese ricercando sempre nuovi linguaggi espressivi e offrendo al pubblico un'ampia panoramica sulle ultime tendenze del design: esercizi di stile pensati per la sensibilità di chi, anche nell'ambito del gusto contemporaneo, sa riconoscere gli autentici valori della qualità e dell'eleganza.

Generation after generation, glass as family art

de Majo Illuminazione was first established at the end of the second world war by Guido de Majo, who, having left his native Naples, moved to the Lagoon, and in 1947 founded his first glassworks on the island of Murano. Although a small business concern at the beginning he knew how to transform it into an important reality in the world of Murano glass thanks to a company strategy built on quality production techniques turning this company, in just a few years, into a leading industrial enterprise.

This commitment, focalised on ongoing improvement, allowed de Majo to deal with new the forms of pressure which were sweeping across the glass industry. In the 70's design became an important element in production and de Majo was one of the first companies to invest in this concept and introduced alongside the traditional high-quality crafted products, a standardised range expanding its own market considerably. Since that point in time de Majo has always given young designers the right amount of freedom of creativity to achieve to best results possible which simply translates into a product, however "standard" with its own personality, and the perfect balance between lighting efficiency and appeal.

The meticulous care to detail and to production techniques for de Majo has always embraced the need for guaranteeing safety in the workplace and respect for the environment.

Today, this company maintains the early Murano traditions and at the same time strives for new style appeal offering customers a wide selection of current design trends for who with a taste for the contemporary appreciates authentic quality and elegance.

Dal 1947, l'eccellenza che dona prestigio ad ogni ambiente

Fin dai suoi esordi a Murano, negli anni Quaranta del secolo scorso, la de Majo Illuminazione ha orientato il proprio impegno e il talento dei suoi Maestri vetrari verso la produzione dei lampadari classici, accumulando nel tempo un'esperienza ed una sapienza artigianale ben visibili in ciascuna delle proprie realizzazioni.

È indubbio che, da qualche anno, il lampadario classico veneziano sia ritornato in voga come superlativo elemento di arredo, grazie alle sue doti uniche e universalmente riconosciutegli di versatilità, adattabilità, prestigio. È vero altresì (caratteristica straordinaria del vetro di Murano) che il lampadario classico ha saputo riproporsi in nuove interpretazioni, attraverso il talento di designers e Maestri vetrari: pur non rinunciando alle lavorazioni classiche, si è imposto quale espressione di design attuale e di buon gusto.

Dalla consapevolezza che il lampadario può risultare splendido protagonista in numerosi e differenti contesti di arredo, deriva la necessità di offrirne il più ampio grado di personalizzazione possibile. Pertanto le forme, le dimensioni ed i colori di tutti i lampadari del presente catalogo possono essere variati a piacimento dell'utente, grazie ad un'abilità che non conosce ostacoli realizzativi. Su richiesta, de Majo realizza inoltre progettazioni speciali, uniche ed inedite, che rappresentano il culmine di eccellenza della sua produzione: lampadari di altissima fattura destinati ad impreziosire dimore private, palazzi e grandi hotels in tutto il mondo, pensati da un team interno di creativi e prodotti a Murano da maestranze che sanno plasmare il vetro secondo i migliori dettami della tradizione, con arte e passione ineguagliabile.

Since 1947 an excellence which enhances any location

Since the start in Murano in the 1940's, de Majo Illuminazione has always focused on and converged the talents of its master glassmakers towards the production of classic chandeliers and luminaires building, over time, an experience and handcrafting know-how which can be seen in each single creation.

Without doubt, in the last few years, the classic Venetian chandelier has become "fashionable" again becoming an important furnishing feature thanks to its unique and undoubtedly acknowledged ability to be flexible, adaptable and elegant. It is also true to say (extraordinary feature of Murano glass) the classic chandelier has been reinterpreted thanks to the skills and talent of designers and the Master glassmakers, and without losing the traditional glass crafting technique, this chandelier has become the expression of good taste and contemporary design appeal.

Knowing that a chandelier can be the central feature in diverse furnishing contexts, there is, however, the need to offer a wider selection of more individual solutions. That is why the design, the size and colours of all the chandeliers and luminaires in this catalogue can be personalised satisfying individual customer taste and appeal thanks to the unleashed skills. Upon request de Majo can offer bespoke solutions, unique and truly exclusive, representing the apex of the superior quality production this company offers its customers, chandeliers and luminaires of superior quality workmanship, the perfect solution for enhancing homes, palaces and hotels across the globe, created by an in-house team of designers and produced on the island of Murano by expert Master glassmakers who know how to transform glass using traditional techniques blended with art and an unequalled passion.
