

LEO | IRAI

# LAUDARTE

Laudarte è ormai il riconosciuto punto di riferimento di architetti, constructors e decoratori, che dà valore agli arredi di alto livello. Ogni lampada è frutto di un progetto che unisce capacità produttive industriali con cultura, qualità e tradizione di alto artigianato.

*Laudarte is now the acknowledged benchmark for architects, designers, constructors and decorators, which gives value to high-end interiors. Each lamp is the result of a project that joins production capacity industrial culture, quality and tradition of highest craftsmanship.*

Lusso

LEONE ALIOTTI

Classico

LEO MIRAI

Contemporaneo

# LEO MIRAI

La collezione Leo Mirai propone un prodotto di raffinate geometrie ricco di preziosi particolari su disegni di Attilio Amato. Si inserisce perfettamente negli ambienti contemporanei e non solo, contribuendo a creare un atmosfera di lusso e prestigio.

*The collection Leo Mirai offers a product of refined geometries rich in precious details from leading designs of Attilio Amato. It perfectly fits in contemporary interiors and beyond, helping to create an atmosphere of luxury and prestige.*

## Source

The first decades of XX century were dominated by the attempts to inject art into industry.

A strong feeling, shared by designers, design critics and manufacturers alike, emerged at this time that the traditional concept of "applying art" to the surfaces of manufactured goods had lost its relevance now that the machine, rather than the hand, dominated production processes.

The logical alternative was to evolve a simple, rational style which echoed the values and processes of machine production and thereby symbolized the new century in all its technological glory.

The curves of Art Nouveau gradually faded, giving way to a much simpler, more geometric "machine aesthetic" and, where avant-garde architecture and decorative arts were concerned, this became the dominant style.

## Ispirazione

*Le prime decadi del XX secolo sono state caratterizzate dal tentativo di coniugare l'arte con la produzione industriale.*

*Ora che le macchine sostituiscono la produzione artigianale emerge una forte volontà, condivisa da progettisti critici e produttori, di superare il concetto tradizionale di "arte applicata" che decora la superficie degli oggetti.*

*La logica alternativa è di evolversi in uno stile semplice e razionale che evochi i valori della innovativa produzione meccanica, e in tal modo rappresenti il nuovo secolo in tutta la sua modernità tecnologica.*

*Scompaiono gradatamente le morbide linee dell'Art Nouveau, lasciando il passo a un concetto estetico più geometrico e più semplice, e quando le avanguardie architettoniche e le arti decorative si compenetranano questo diventa lo stile dominante.*

## Product

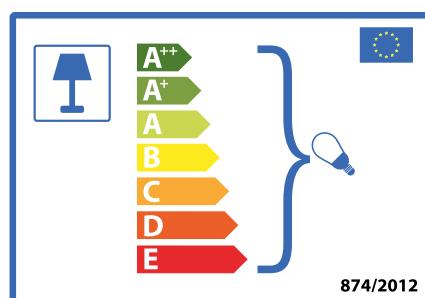

Changes of the beginning of 19<sup>th</sup> century and the birth of design inspire the collection of the lamps Leo Mirai, creating projects that combine forms and materials with clean lines, conceived in the interiors of great French architects of the 40s, adding contaminations of new trends.

From the company's history Laudarte draws and preserves the flavor of the high craftsmanship, the care and the attention to detail, the choice of highest level materials. Lamps are made in brass nickel plated and enriched by precious inserts.

## Prodotto

*Dai cambiamenti di inizio secolo e dalla nascita del design prende spunto la collezione di lampade Leo Mirai, creando progetti che combinano forme e materiali dalle linee pulite, immaginate negli arredi dei grandi architetti francesi degli anni '40, includendo contaminazioni di nuove tendenze.*

*Dalla storia dell'azienda Laudarte attinge e preserva il sapore dell'alto artigianato la cura e l'attenzione ai particolari, la scelta di materiali di altissima gamma. Le lampade sono prodotte in ottone bagnato nichel ed arricchite con inserti di materiali di alto pregio.*

## Materials

Brass casting is the base material for the Leo Mirai line, to confer intrinsic quality in each product.

### Crystal

The transparent and particularly brilliant glass, obtained with the use of lead silicate.

It was perfected in Bohemia (manufactured with silicon, calcium, and potassium), towards the end of the seventeenth century. It is particularly suitable for grinding processing.

### Murano glass

In Venetian glass, as in the ancient Mediterranean tradition, soda is added to allow melting at lower temperatures.

The glass paste remains long ductile, allowing special and elaborate processing.

### Black glass paste

An elegant declination, the glass paste black emerges in this period.

### Alabaster

Used by the Etruscan, alabaster offers a very special range of soft and deep colors, from natural opalescence to brilliant and saturated intensity.

## Materiali

*La linea Leo Mirai utilizza fusione di ottone come materiale di base, che conferisce qualità intrinseca a ogni prodotto.*

### Cristallo

*Il vetro trasparente e particolarmente brillante, ottenuto con l'impiego di silicato di piombo.*

*Fu perfezionato in Boemia (fabbricato con silice, calcio e potassio), verso la fine del XVII secolo. Si presta specialmente alla lavorazione a molatura.*

### Vetro di Murano

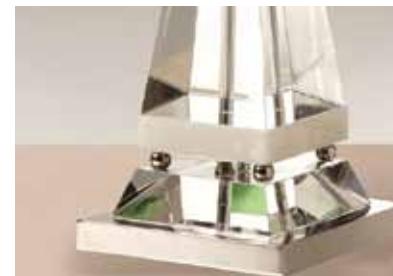

*Nel vetro veneziano, come nell'antica tradizione mediterranea, si aggiunge la soda per consentire la fusione a temperature minori. La pasta di vetro rimane duttile a lungo, permettendo lavorazioni particolari ed elaborate.*

### Pasta di vetro nera

*Una elegante declinazione, la pasta di vetro nera emerge in questo periodo.*

### Alabastro

*Usato dagli Etruschi l'alabastro offre una specialissima gamma di colori morbidi e profondi, dall'opalescenza naturale all'intensità brillante e satura:*

## Production

Full Made in Italy, with strict quality control to grant an high standard product, which always distinguishes Leo Mirai line.

Lamps are wired according to different Countries rules.

The company reserves the right to alter products for technical reasons, and whenever the security legislation makes it necessary.

## Produzione

*La produzione viene realizzata completamente in Italia, con controllo di qualità in tutte le sue fasi, per mantenere l'elevato standard di prodotto, che caratterizza da sempre la linea Leo Mirai.*

*Le lampade sono realizzate e elettrificate secondo le normative dei diversi paesi.*

*L'azienda si riserva il diritto di apportare modifiche sul prodotto per esigenze tecniche, e ogni qualvolta la normativa di sicurezza lo rendesse necessario.*

# Hospitality - Contract - Projects

We have been chosen for furnishing some of the best hotels worldwide  
*Siamo stati scelti per arredare i più prestigiosi alberghi del mondo*

## The custom made project service

Can meet any design requirements: the organization and the most modern technology operate more than 15,000 components, allowing extremely flexible scheduling also for special projects.

## *Il servizio di progettazione su misura*

*Consente di soddisfare ogni esigenza progettuale: l'organizzazione e le più moderne tecnologie gestiscono più di 15000 componenti, consentendo flessibilità e programmazione anche sui progetti speciali.*
