

ELLEQUATTRO
ILLUMINAZIONE

Il marchio ELLEQUATTRO® nasce nel 1969. Da sempre legato alla produzione di lampadari classici in legno, nel tempo il marchio si è trasformato per rispondere alle nuove sollecitazioni del mercato.

Sono nati oggetti ispirati alla tradizione decorativa, elementi di luce dove il design si coniuga con l'artigianalità, con la funzionalità e con l'originalità delle forme. Questo sviluppo, che ha trovato consensi sempre crescenti, non ha mutato la filosofia di base del progetto, ovvero realizzare oggetti che si caratterizzano per la qualità della lavorazione, oggetti tecnologicamente innovativi ma che nella loro concezione e nella loro realizzazione non rinnegano il passato.

Born in 1969 as a company for the artistic wood production of classical lamps, in time ELLEQUATTRO® has developed a new line of production to meet market demand. Therefore, lines inspired by traditional decoration were developed linking together craftsmanship, functionality and original shapes. This combination, which has found an ever increasing approval, has not changed the basic philosophy of the brand: the aim is to realize objects of top quality craftsmanship following new technologies without neglecting the past.
