Un oggetto di raffinata bellezza depositato nel "caveau della nostra memoria": l'arcolaio, attualizzato in un nuovo, espressivo ed innovativo gioco luminoso.

Una lampada che evoca un'essenziale struttura architettonica, valorizzata da luce diretta e indiretta, che dialoga con lo spazio circostante restituendo imprevedibili tessiture di luci.

Lampada estensibile realizzata con aste in legno di ciliegio e struttura centrale telescopica in metallo cromato perlato. Lampada dispiegabile con un'escursione da minimo 160 a massimo 950 mm. Dotata di 1 lampadina alogena lineare 150W, attacco R7s o nella versione power LED da 24W, 3000° K, durata 50.000 h.

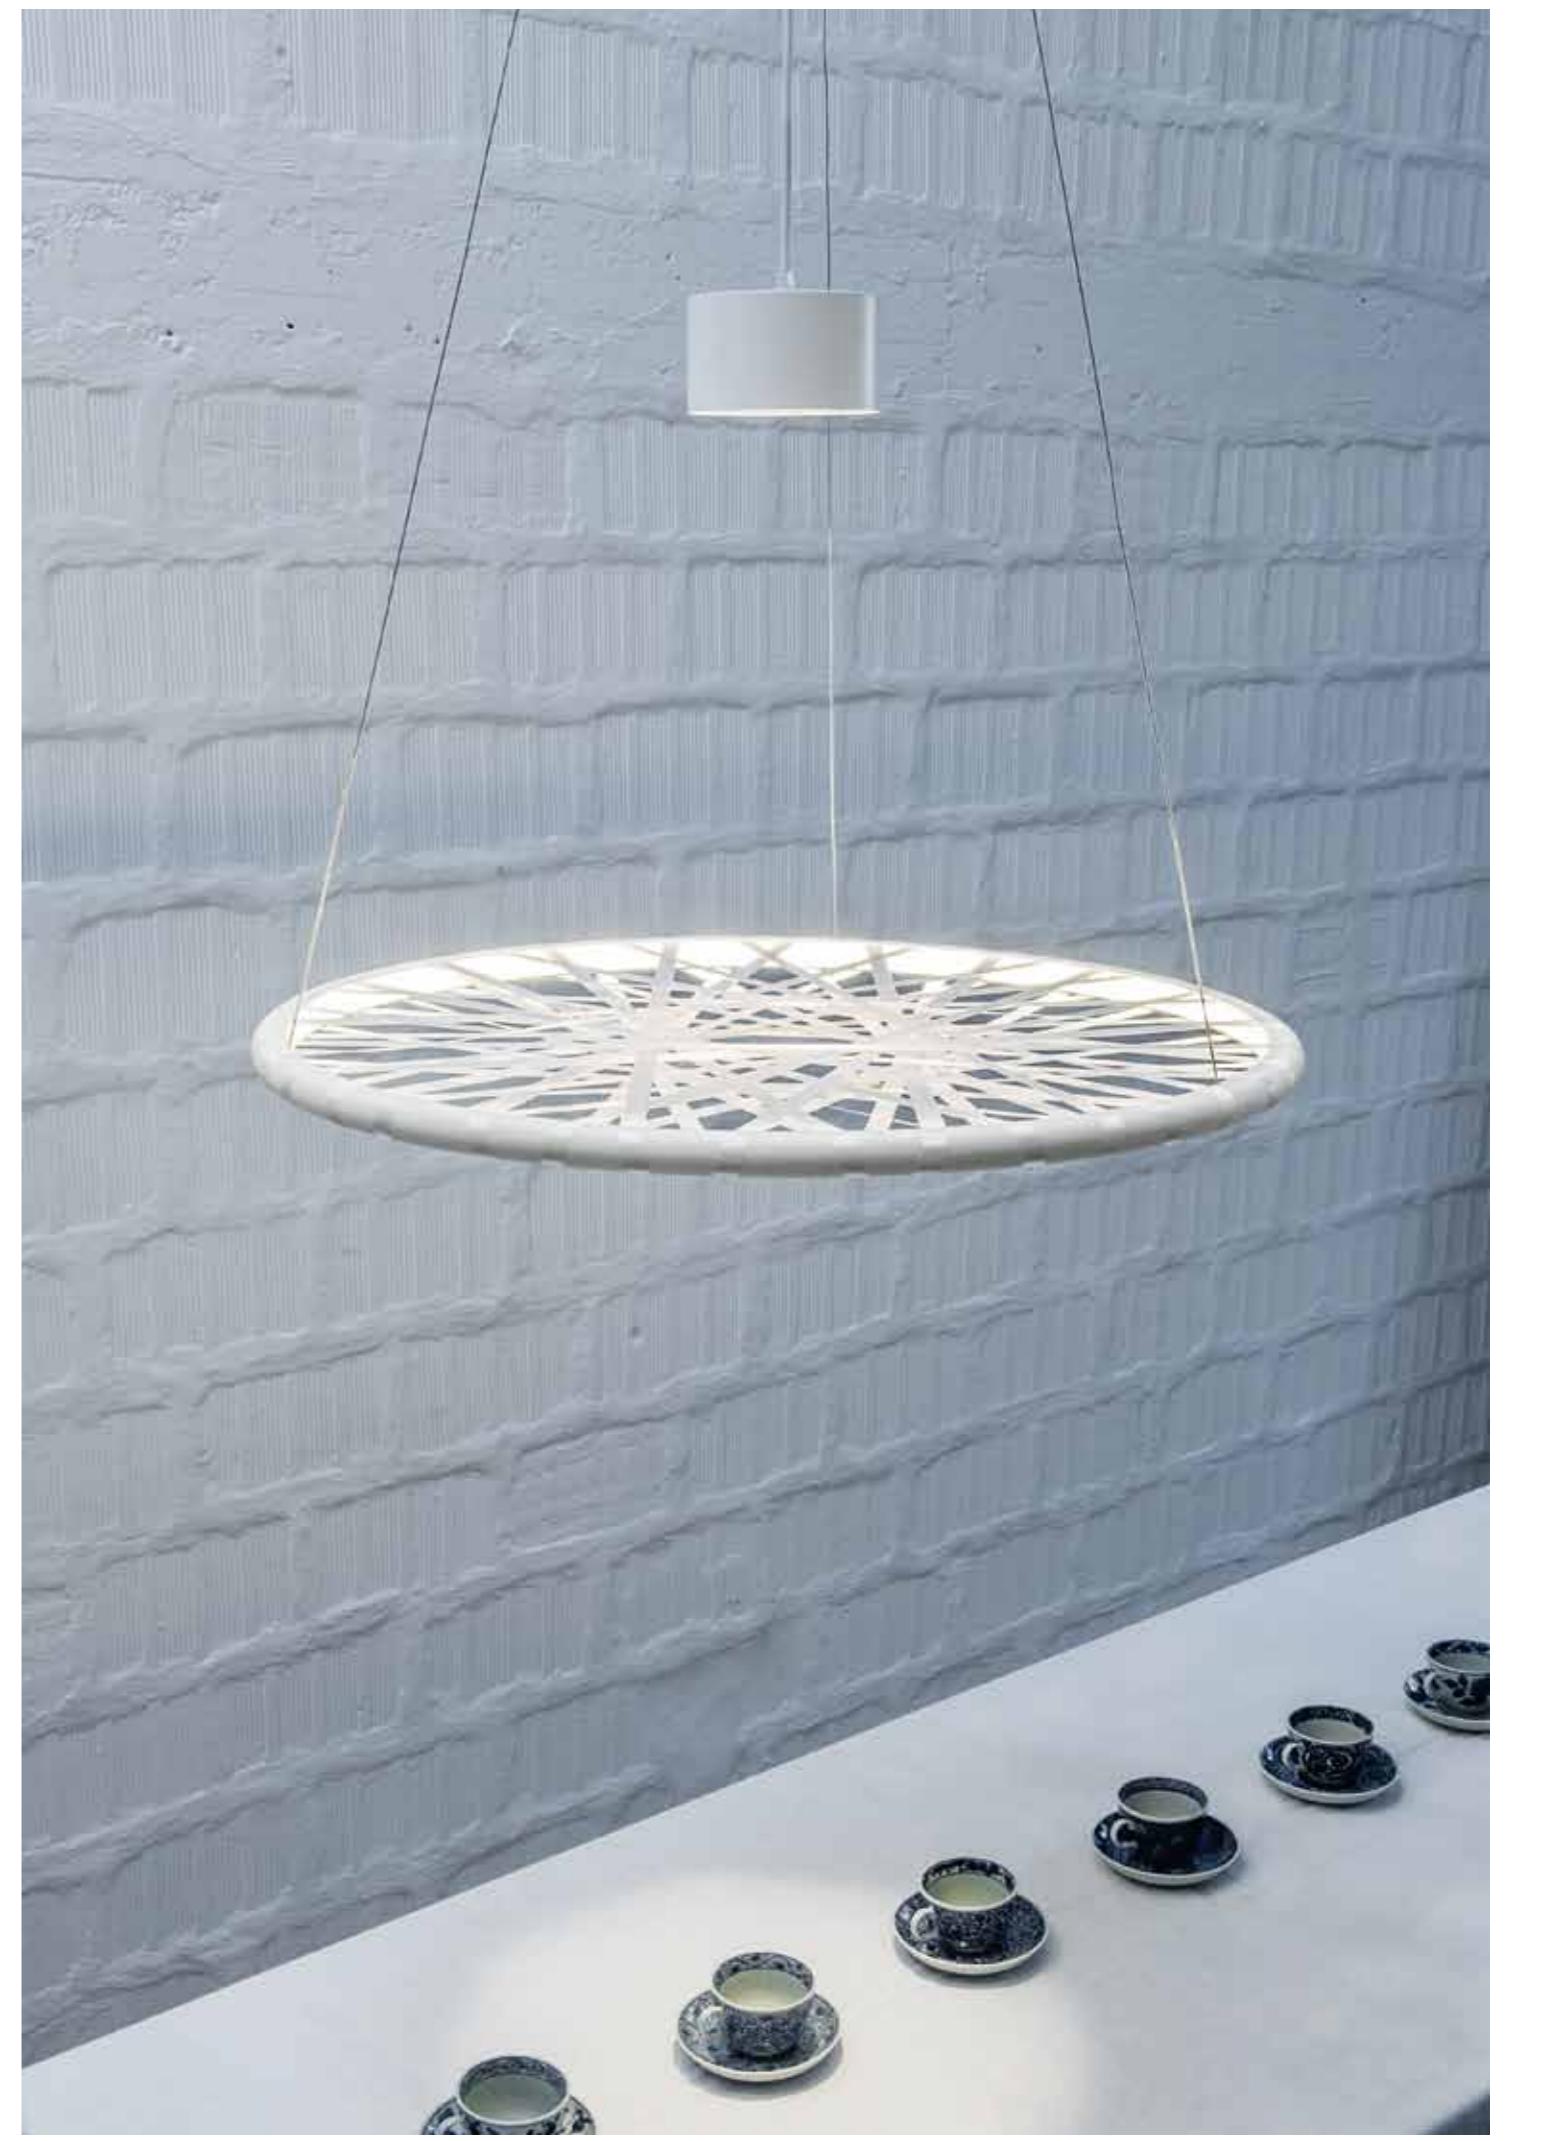

An object of sophisticated beauty impressed in the "vault of our memory": a spinning wheel updated as an innovative lighting game.

This object heralds the celebrated return of an incredible architectural structure, enhanced by direct and indirect light, which relates with the surrounding space through a new and unusual light and shadow effects.

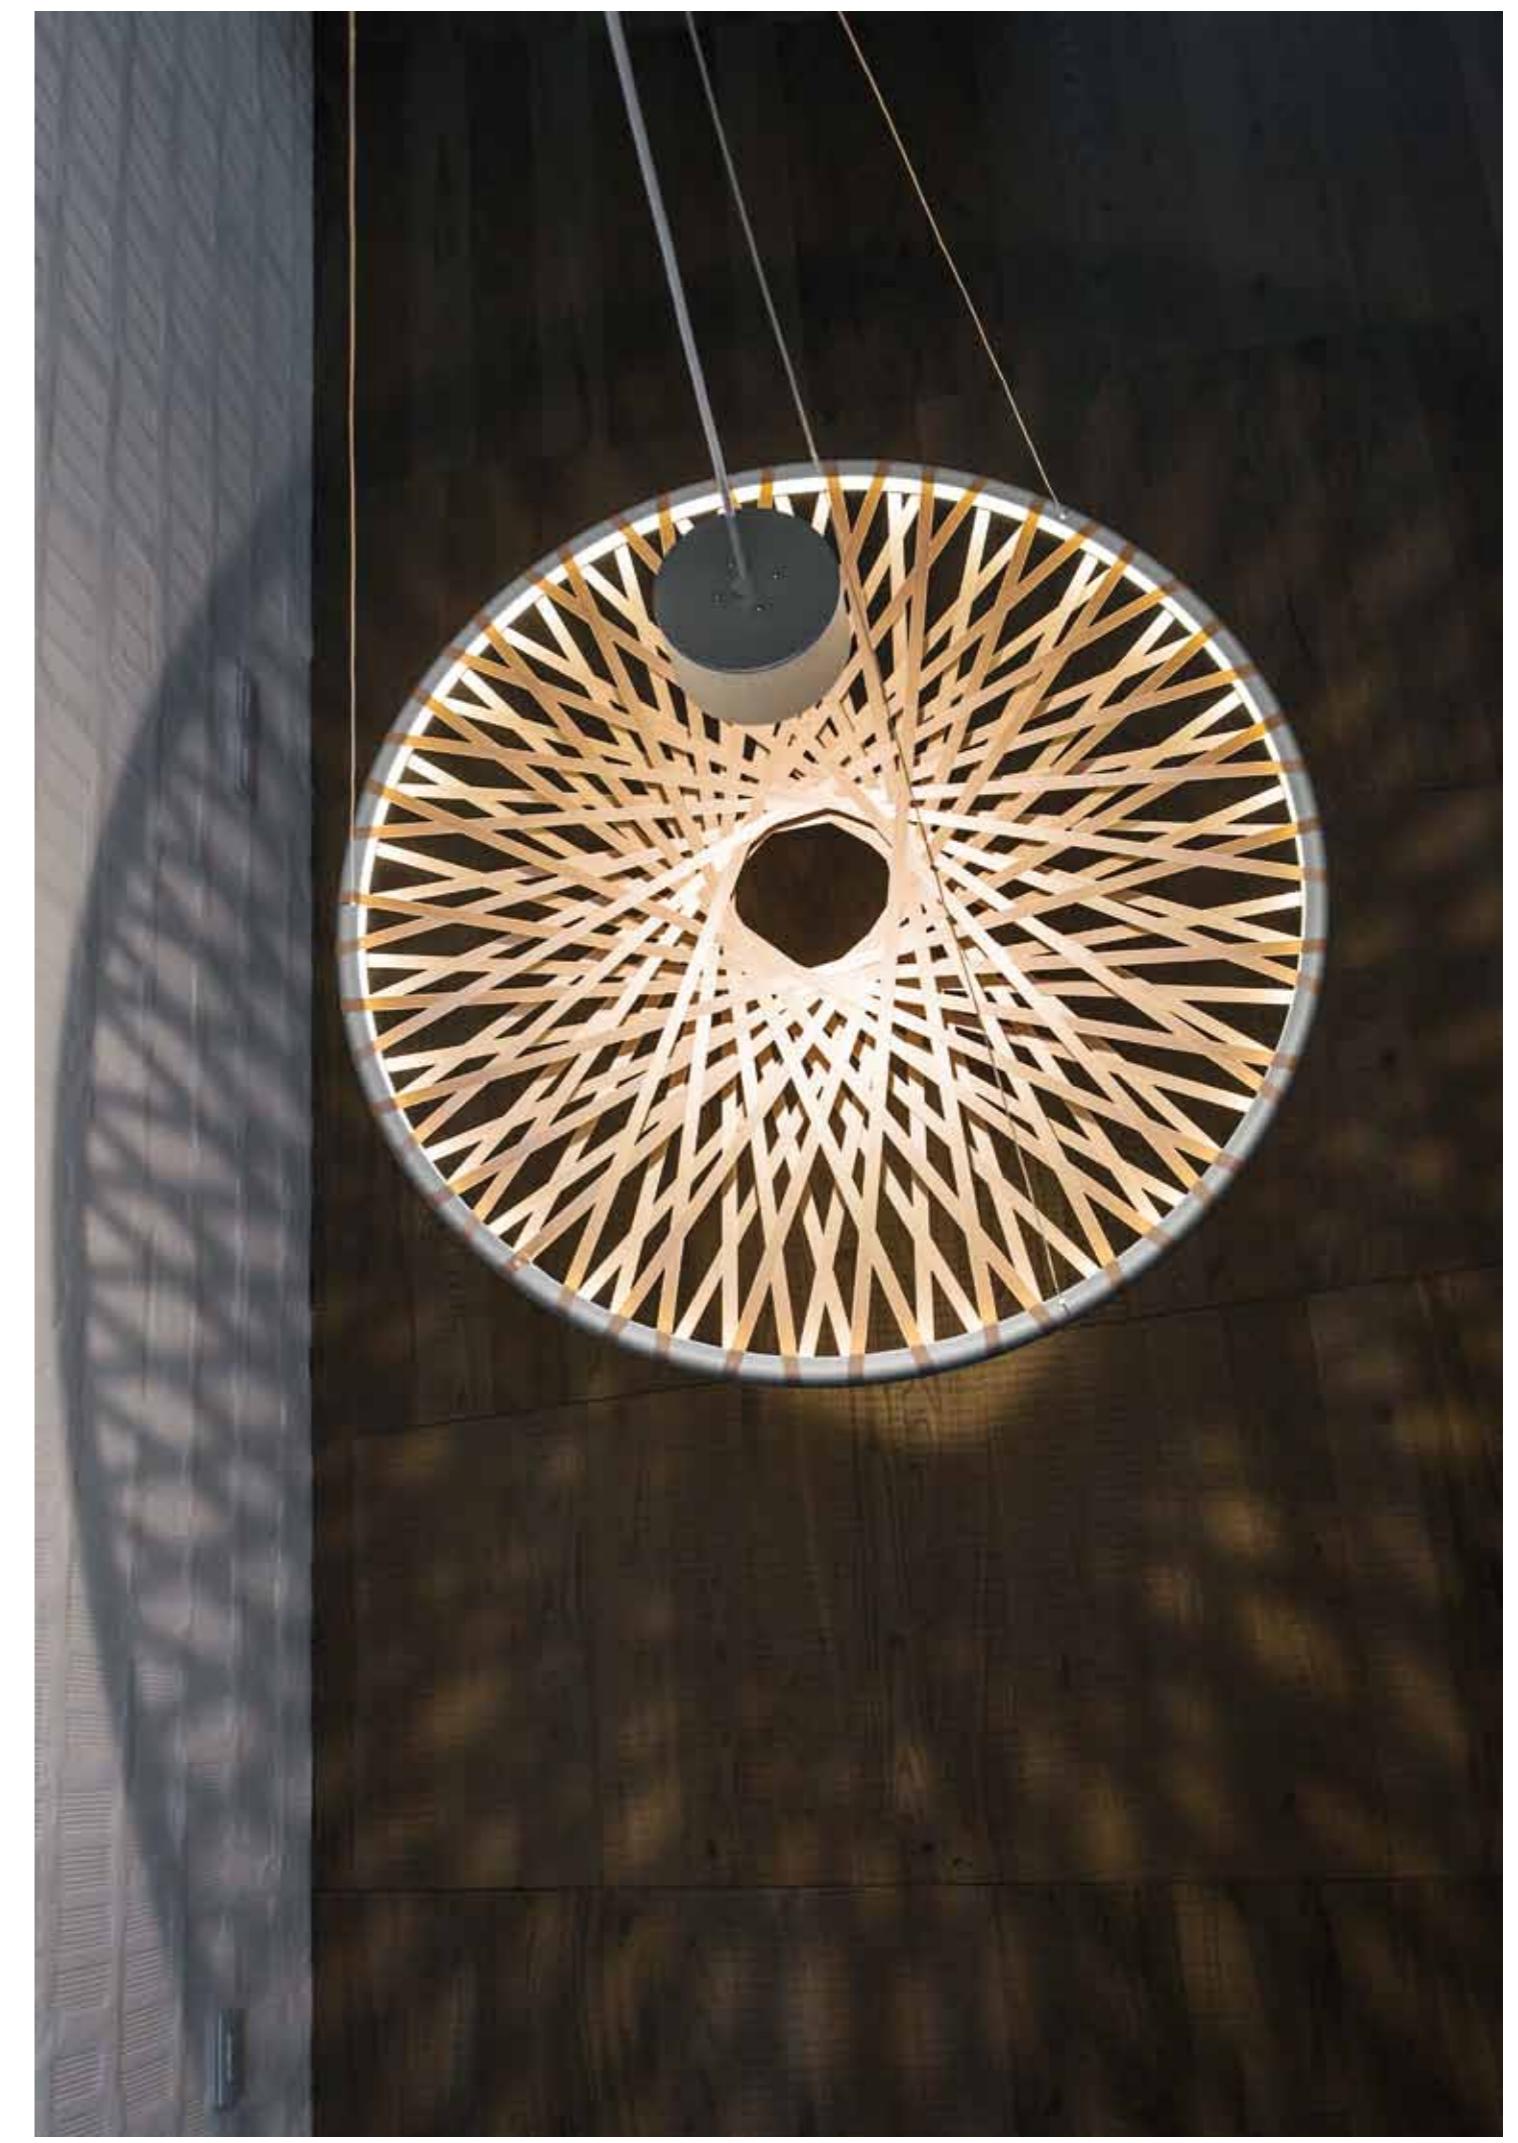

Extendable pendant lamp made in cherry wood rods with telescopic pearly chrome central structure. Extendable lamp with a range from minimum 160 mm to maximum of 950 mm. Light source: 1 linear halogen 150W light bulb, socket R7s or 1 power LED 24W, 3000° K, duration 50.000 h.

2013

Lo scorrere del tempo, la creazione di nuove relazioni che si intrecciano e si sovrappongono rappresentano la nostra vita. È su questa riflessione che nasce la nuova lampada TAPE. Un nastro colorato tessuto attorno ad un cerchio, diventa elemento narrativo e caratterizzante. La sorgente luminosa centrale illumina il tracciato geometrico del nastro che si distingue per la sua complessa semplicità; una strip LED, posta sul perimetro interno illumina il tessuto con luce radente sottolineandone l'aspetto emozionale. Lampada sospensione disponibile nei diametri 800 e 1000 mm. Struttura in alluminio laccato nei colori: alluminio naturale RAL 9006 e bianco RAL 9003. Nastro in poliestere nei colori bianco, grigio e beige. Il perimetro interno è sempre dotato di una strip LED, 3000°K, potenza 30W (Ø1000) e 24W (Ø800) alimentazione a 12V. Lampada disponibile con 1 lampadina alogena dimmerabile Halospot 111 60W attacco G53; o versione con lampadina power LED dimmerabile da 24W, 3000° K, durata 50.000 h. Entrambe versioni sono dotate di vetro protettivo in Pyrex sabbato. Le due fonti luminose (centrale e strip) si possono accendere separatamente e il gruppo centrale è sempre dimmerabile. Il corpo lampada centrale, grazie ad un sistema telescopico, può essere liberamente posizionato in diverse altezze così da modulare l'intensità della luce e creare effetti luminosi e sorprendenti.

The passing of time, the creation of new overlapping relationships: this is our life. This is the creative thinking behind the new TAPE lamp. A simple colored tape woven round a hoop becomes the statement and the defining element. The central light illuminates the geometric layout of the tape, a LED strip light inside the circumference of the metal hoop conveys a subtle light onto the fabric, underlining the pure emotion of the design. TAPE is a pendant circular lamp in 800 and 1000 mm diameters. The structure is lacquered aluminium in the finishing: white RAL 9003 and aluminium colour RAL 9006. The polyester tapes can be in the colours white, grey and beige. The inside circumference is always equipped with a LED strip light, 3000°K, 30W (for Ø1000 version) 24W (Ø800), 12V supply. The central bulb can be or 1 dimmable halogen Halospot 111 60W, socket G53 or a dimmable 24W power LED, 3000° K, duration 50.000 h. Both versions are dimmable and equipped with a sanded protective Pyrex glass. Possibility of separate switch. The lamp has a height-adjustable system so the central body can be positioned at different heights to vary the intensity of the light and create unexpected luminous.

New version 2013

Nel 2013 Pallucco presenta la nuova versione Fortuny LED, garantendo intramontabilità all'icona del design contemporaneo. La nuova versione si aggiunge alla tradizionale dotata di lampadina ad incandescenza e consente di allineare i modelli Fortuny all'attuale tendenza mondiale rivolta al risparmio energetico. La lampada classica (grande) è dotata di power LED da 48W (luce calda 3000°, durata 50.000 h) mentre 32W (3000°, durata 50.000 h) per la versione Pétite entrambe dimmerabili. Le lampade mantengono invariati le finiture della struttura e i tessuti presenti a catalogo.

In 2013 Pallucco is presenting the new LED version of that eternal icon of contemporary design, the Fortuny lamp. The new version joins the conventional model with its incandescent bulb to bring the Fortuny lamps into line with current world energy-saving trends. Both the classic (large) and the Pétite lamps are fitted with dimmable bulbs—high power 48W (warm light 3000°, duration 50.000 h) and 32W (warm light 3000°, duration 50.000 h) LED respectively. The finishes of the stand and the fabrics remain those listed in the catalogue.

New version 2013

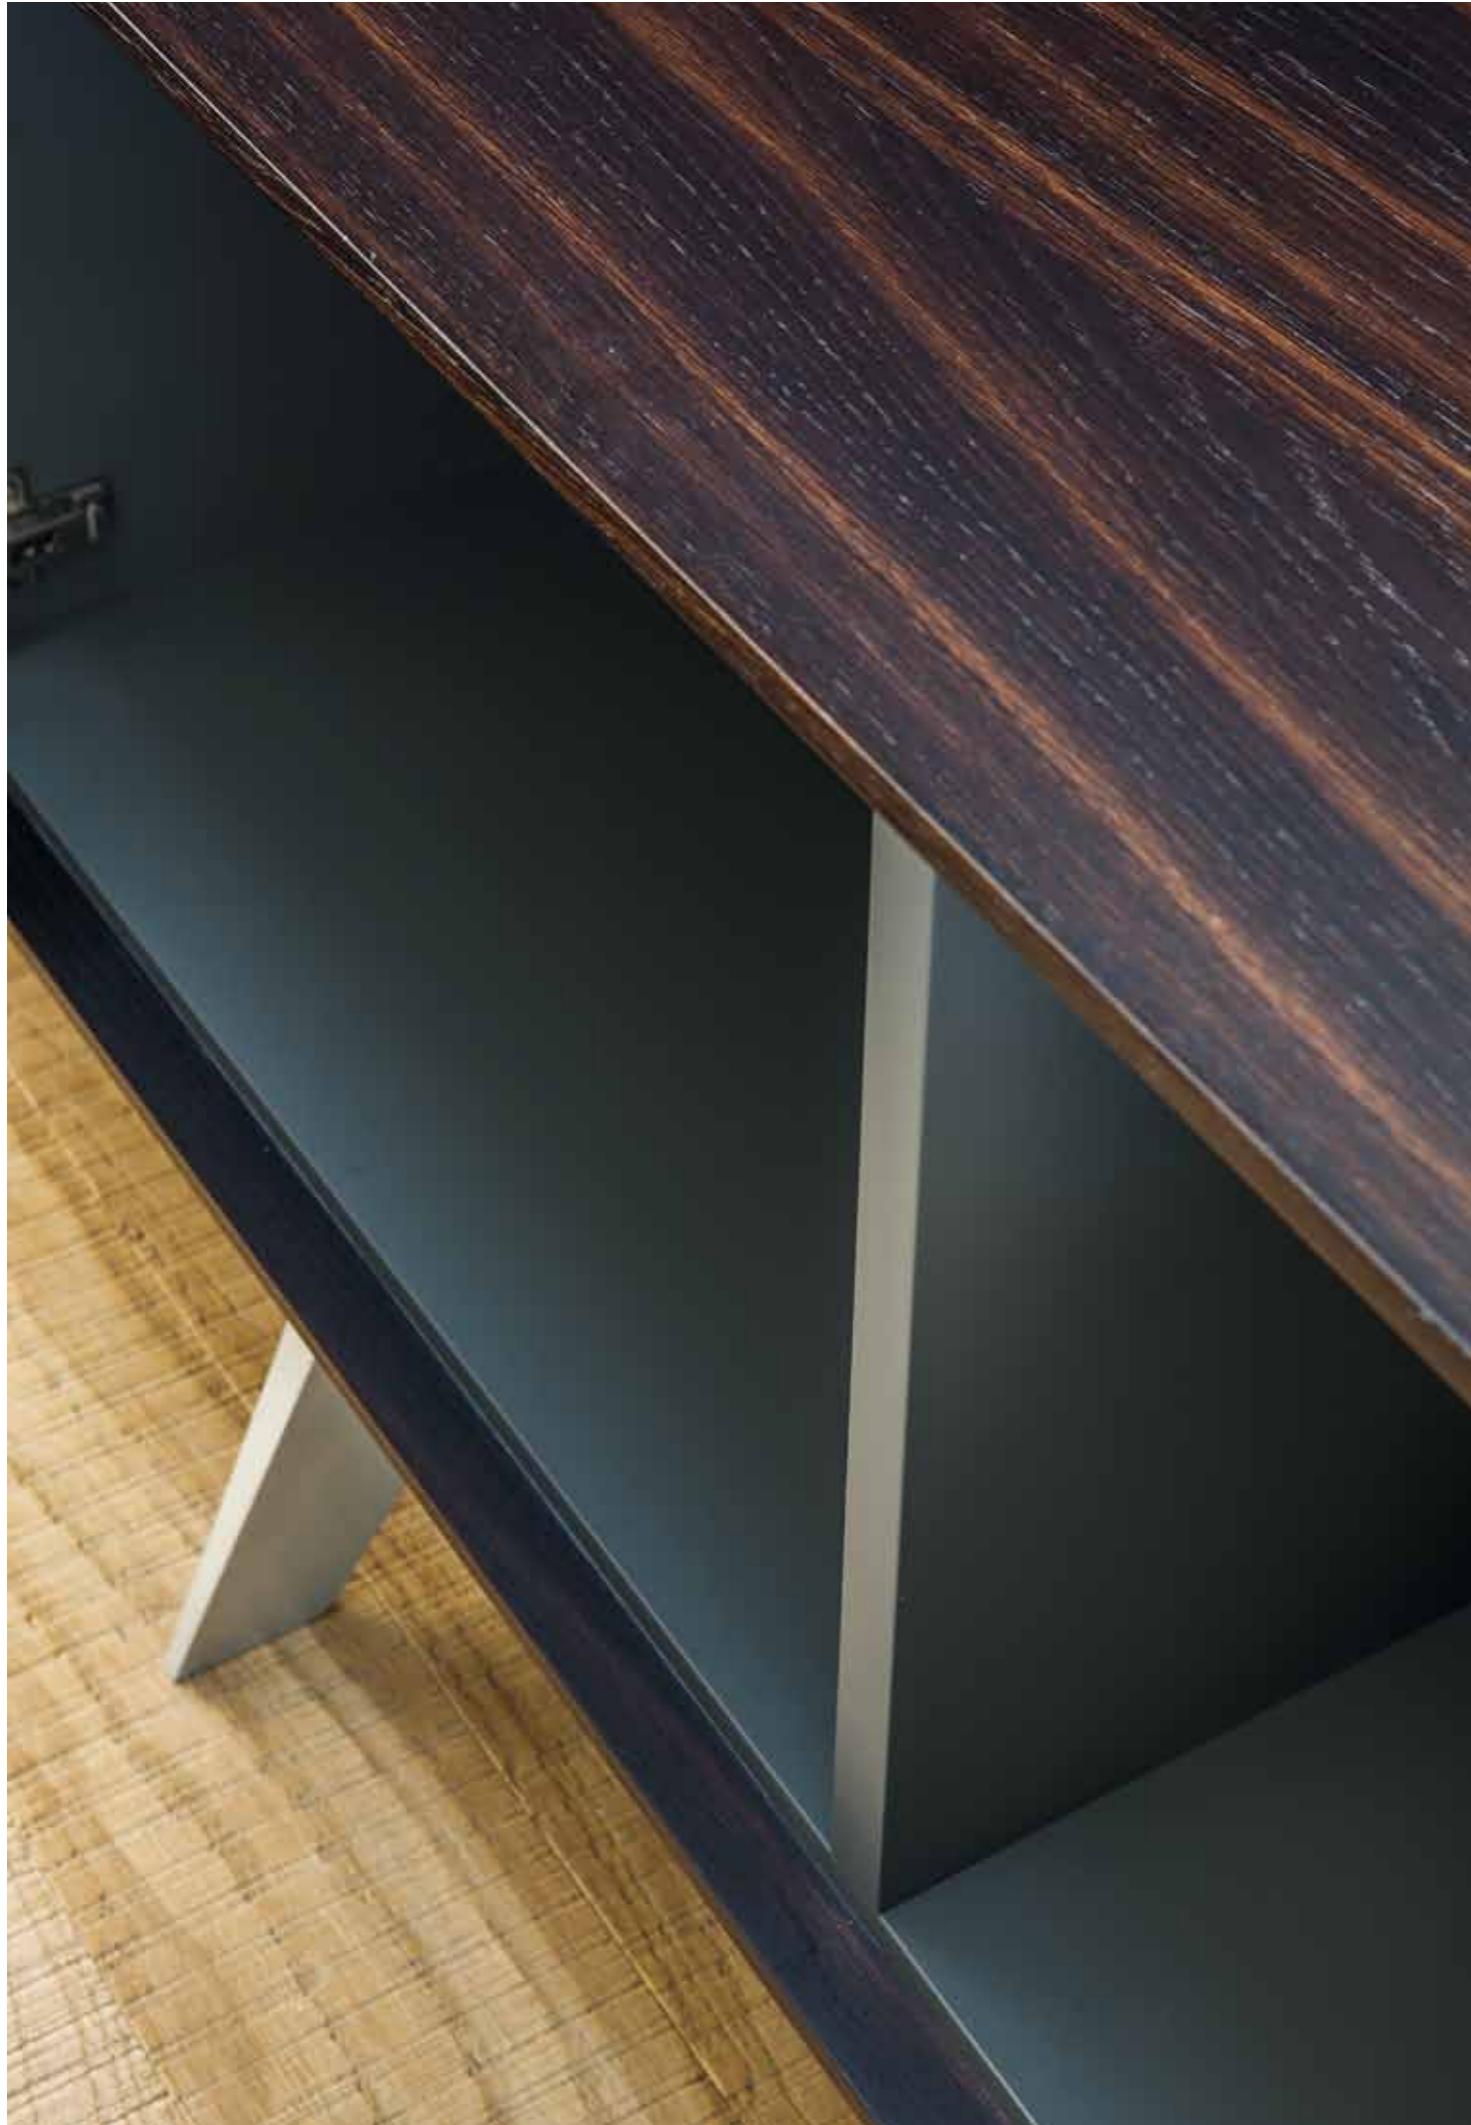

Nel 2013 per la lampada Gilda si aggiungono la versione LED e la versione con tessuto Remix di Kvadrat. L'elegante tessuto Remix è stato creato da Giulio Ridolfo ed è composto al 90% di lana vergine pettinata e al 10% da Nylon. Pallucco ha selezionato 2 colori trendy ovvero verde Remix 923 e celeste Remix 823 ma si possono scegliere altre numerose varianti. La nuova versione LED si aggiunge a quella tradizionale con lampadina alogena per adeguarsi ad un'illuminazione all'insegna del risparmio energetico. La lampada viene equipaggiata di 3 lampadine Master LEDbulb MV 17W, luce calda 2700° K, attacco E27, durata 25.000 h.
