## WHAT WE STAND FOR

**WEVER & DUCRÉ**  
ARCHITECTURAL LIGHTING

We are proud of our Belgian heritage. Our name proves that – it consists of four Belgian words that describe us perfectly.

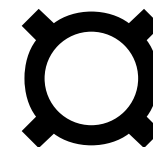

**WER**klust  
engl.: hard work

**VER**trouwen  
engl.: trust, reliability

**DU**rf  
engl.: courage

**CRE**ativiteit  
engl.: creativity

...& combined with a big portion of enthusiasm

**WEVER & DUCRÉ®**  
ARCHITECTURAL LIGHTING

## QUALITY

**WEVER & DUCRÉ®**  
ARCHITECTURAL LIGHTING

We profit from being a part of the XAL group. Our products are tested in a unique laboratory at XAL headquarters in Graz. It offers great potential for innovative research and development and will enable us to develop even better and more energy-efficient products with higher quality.

ARCHITECTURAL LIGHTING

## SIMPLICITY

We follow the simple plug and play strategy. This means that our products are easy to install and maintain.

Your benefit is our product availability from stock.

We guarantee that your product will arrive as fast as possible delivered from our warehouse in Belgium.

A man with long brown hair and black-rimmed glasses is sitting at a desk, looking at a laptop screen. He is wearing a red and blue plaid shirt. The background is blurred, showing what appears to be a workshop or office environment.

## DESIGN

We create fixtures in a smart and different way. With our fresh design we stay ahead and create a product range that reinterprets current trends as well as Belgian design classics.

Thanks to LED technology, the light source needs less space, allowing us to focus on the product design itself. This leads to creative and innovative solutions.

A cosy home needs light for any situation – and we take care of that.

**WEVER & DUCRÉ**  
ARCHITECTURAL LIGHTING

## ENVIRONMENT & TECHNOLOGY

We can offer elaborated, energy-efficient and sustainable products which make optimum use of existing technology.

Our LED technology takes advantage of the long term experience and existing developments of XAL.

Enjoy the benefits of state-of-the-art technology.

## JULES WABBES' J.J.W.

The famous Belgian designer Jules Wabbes is mostly renowned for his furniture design – not only since his designs for the 1958 EXPO in Brussels.

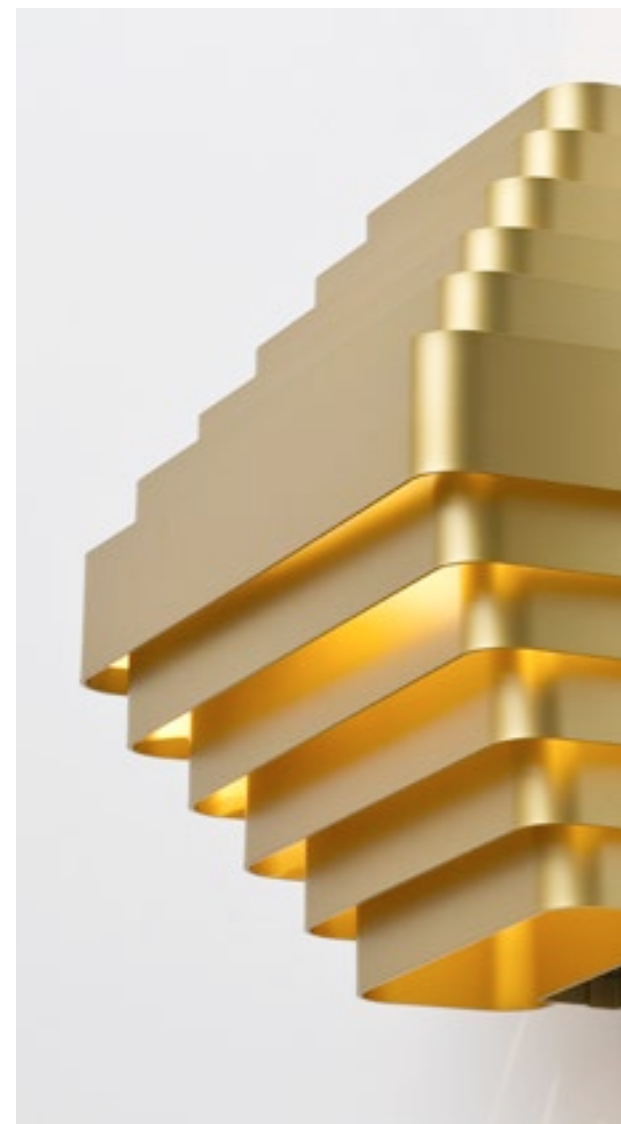

Especially with his accessoires and lighting fixtures he demonstrated his mastery of metal working.

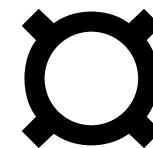

Elegant and timeless, the J.J.W. has been a design classic for years. Wever & Ducré obtained the exclusive design rights which also include ceiling and wall luminaires, all available in two different colours.
