ATLANTIC

Atlantic is the new collection of I Tre lamps. A very sober style and pure lines make these lamps stand out and are emphasised even further by the essential materials and white colour that are used.

The blown satin glass diffuser and white metal mounting give a heavenly, almost moonlike air to this extremely simple design lamp.

Available in the standard, ceiling-wall and table lamp versions, Atlantic is designed for I Tre by Paolo De Lucchi. The light is given off evenly into the room with that diffusion typical of blown and coated glass, which is extremely attractive and yet functional as well.

Once again I Tre has come up with a product that marries styling research and functions with the latest design trends.
