ATELIER

The distinguishing feature of Atelier series is the precious material, lead crystal, entirely hand worked, characterized by extreme transparency and brilliance, and by the peculiar production process. The crystal pieces are not cut, but blown on stamps, which renders them extremely light, nevertheless feature the characteristic diamond shape.

The collection is complete: suspension, ceiling table lamp, wall bracket. The structure is in chromed metal

A truly precious collection, extremely elegant, which finds its place in traditional as well as stylish modern locations.
